LIFE SAVER POOL FENCE OF SOUTH CAROLINA

Pool Safety Evaluation Checklist

How many layers of protection do you have in place?

1. You assign Water Watchers during pool time
2. Pool drain cover is dome-shaped, has small openings, and is properly installed
3. High locks on all doors and windows that lead to the pool
4. Alarms on all the doors and windows that lead to the pool
5. No doggy door/sealed doggy door leading to the pool
6. Pool safety fence that isolates the pool and includes a self-closing, self-latching gate
7. Automatic pool safety cover
8. Pool net
9. Perimeter fence around the entire backyard
10. Children under 5 wear personal immersion alarms, i.e. Safety Turtle
11. Alarm in the pool that detects entry
12. All children in the house over 12 months old have completed/are enrolled in swim survival training
13. All adults in the house know how to swim
14. All adults in the house know CPR

Review the layers you have in place and identify opportunities to improve pool safety for your family. Every additional layer helps create another opportunity for intervention.
